EDUCATION

KARADENIZ TECHNICAL UNIVERSITY

Software Engineering

2019 - 2024

SKILLS

Linux & Bash
- Bashscripting
- Linux, SSH, Git, Docker, Ansible, adb
- Projects: FastQR CLI Tool, Ansible Playground

JavaScript (NodeJS)
- Puppeteer web scraping and automations
- Socket.IO
- Express.js
- Projects: Socket.IO Chat, modemrestart

Arduino (C++)
- Projects: Numeric door lock system.

Raspberry Pi
- Embedded systems, IoT.
- Projects: VR Night vision googles. (Python)

FOREIGN LANGUAGE

- English Intermediate

WORK EXPERIENCE

SOFTWARE ENGINEER INTERN   *Eskişehir 2023 - 1 month*

ANADOLU UNIVERSITY BAUM

I completed a 25-day summer internship at Anadolu University Computer Research and Application Center. I have learned **Bashscripting basics** and dynamic web applications with **NodeJS**.

SOFTWARE ENGINEER INTERN   *Ankara 2022 - 4 months*

KONNEKA INFORMATION AND COMMUNICATION TECHNOLOGIES

I finished a long term internship at Konneka Information and Communication Technologies. During this period, I focused on **Linux** environment and developed **cybersecurity** products.

SOFTWARE ENGINEER INTERN   *Ankara 2022 - 2 months*

MAYZOR TECHNOLOGY

I completed my 35-day summer internship at Mayzor Technology. I worked with **Arduino**, **PIC16F877A** and **PIC18F452** microcontrollers in simulation using Proteus and C programming language for creating embedded system projects.

CERTIFICATES

2024   **Docker Fundamentals**
BTK Academy

2024   **Rust Programming Language**
BTK Academy

2024   **Linux OS in Cyber Security**
BTK Academy

2023   **Version Controls: Git and GitHub**
BTK Academy
